

# CHAMELEON<sup>®</sup>

DETECTING THE INVISIBLE<sup>™</sup>

BY: **MORPHIX**  
TECHNOLOGIES

First responders and military personnel deal with dangerous situations every day. In the face of chemical threats, minutes may make the difference between life and death.

Load the cassettes from the kit into the armband, wear it on your person or even put it on a robot.

You're ready to go!

If half of the viewing window changes color – the chemical is present.
